CAPO 1

words & music
Dennis Selfridge

D Dma7 Bm Bm/A Em A7

1) If the night goes easily, or if it's kinda hard, I don't have to wonder any more
 2) There's too much here to figure out, a lot of things you shouldn't know, and times the truth gonna cut you to the core
 3) I can live with where I am today, don't really have a choice, You can't get there any other way

D Dma7 Bm Bm/A Em A7

Cause if I touch some deeper part of me, I'm only reachin' out, That's all I ever want to be
 But I can't let some opinion bother me, they're just here and now and some are gonna change so readily
 And I might get testy now and then but don't you know it's gettin' easier to find my feet again

C G C G D

CHO: May I never feel the difference, and never lose the heart that's driving me this way
